Education

Graphic Era Deemed To Be University | CGPA: 8.12/10

2024 – 2027

BCA (Artificial Intelligence & Data Science)

Dehradun, Uttarakhand

Central School For Tibetans | Percentage: 77%

2022 – 2024

Intermediate (XII) CBSE Board

Mussoorie, Uttarakhand

Technical Skills

Data Analytics & Visualization: Power BI, SQL, Microsoft Excel.

Programming: Python(*Pandas, Numpy, Matplotlib, Seaborn*).

Database & Tools: SQL, PostgreSQL, Git, GitHub, VS Code, Microsoft Access.

Analytical Abilities: Data Collection, Data Preparation, Data Modeling, Data Visualization, Insight Generation, Reporting, Presentation & Publishing.

Additional Programming Languages: Java(*DSA*), C(*DSA*).

Experience

Cynoteck Technology Solutions Pvt. Ltd.

July 2026 – September 2026

Data Analyst Intern | [Certificate](#) 

Tools: Power BI, Power Query SQL, Python, Excel

- Developed 3 - 4 interactive Power BI dashboards using public datasets, transforming raw data into meaningful insights through data modeling, DAX(Data Analysis Expressions), and effective visualizations.
- Performed data cleaning, preprocessing, modeling, KPI analysis, visualization and exploratory data analysis using Python and SQL to prepare analysis-ready datasets.
- Gained hands-on experience with the end-to-end data analytics workflow, including data extraction, preparation, visualization, dashboard development, publishing reports to Power BI Service and Sharing.

Projects

Blinkit Sales Dashboard | *Power BI, DAX, Power Query*

July 2026 – September 2026

- Analyzed and transformed Blinkit sales data using Power Query to uncover sales and product performance trends.
- Developed an interactive Power BI dashboard using DAX to track key sales KPIs and business performance.
- Identified sales trends and performance patterns to generate actionable, data-driven business insights, and Published To Power Bi Service

Customer Shopping Behavior Dashboard | *Python, SQL, Power BI, DAX*

July 2026 – September 2026

- Performed data cleaning and exploratory data analysis using Python to analyze customer demographics, purchasing patterns, product categories, subscription status, and customer segments.
- Used SQL, Power Query, and DAX to analyze customer behavior and build an interactive Power BI dashboard.
- Identified key customer segments, purchasing trends, and KPIs to drive data-informed business decisions, and Published To Power Bi Service

HR Analysis Dashboard | *Power BI, DAX, Power Query*

July 2026 – September 2026

- Analyzed and transformed HR data using Power Query to uncover employee attrition and workforce trends.
- Developed an interactive Power BI dashboard using DAX to track key HR KPIs across departments, roles, salary, and demographics.
- Identified attrition patterns and workforce insights to support data-driven employee retention strategies, and Published To Power Bi Service

Certifications & Achievements

- **Deloitte - Data Analytics  (2025):** Completed a Deloitte job simulation involving data analysis, Created a data dashboard using Power BI and Used Excel to classify data and draw business conclusions.
- **TCS iON - Soft Skills  , Interview Skills  & communication skills  (2026):** Completed TCS iON virtual experiences certificate programs of Soft Skills , Interview Skills & Communication skills.
